

TECHNICAL DATA SHEET

Childlike Dragée Ornat Fragrance Oil

Product name: Fragrance oil "Childlike Dragée Ornat".

Olfactory classification:

Dragée Enfantine Ornat Fragrance Oil belongs to the gourmand–powdery fragrance family, with a pronounced soft, creamy, and elegantly sweet character. The composition combines almond and confectionery notes with floral and powdery accords, creating a sophisticated and sensorially enveloping fragrance profile.

Fragrance description:

The composition is soft, creamy, and pleasantly gourmand, with medium intensity and stable diffusion. The scent profile is sweet, powdery, and almond-like, with a pronounced impression of warm confections and a soft tactile texture.

The opening is built around a combination of frangipani and almond. Frangipani delivers a rich, creamy confectionery sweetness reminiscent of almond pastries and warm desserts, while almond adds a gentle nutty fullness and soft gourmand depth. This combination creates a warm and comforting initial impression.

In the heart, a floral–gourmand accord develops, dominated by almond blossom and green notes. Almond blossom adds a delicate floral elegance with a soft sweet nuance, while green notes introduce light freshness and airiness that balance the richness of the gourmand opening. This combination forms a harmonious and gentle heart with a pronounced sense of softness and purity.

The base structure is built on a powdery accord and heliotrope. The powdery accord provides a velvety and elegant texture, while heliotrope contributes warm vanilla–almond nuances and extends the creamy character of the composition. The dry-down is soft, sophisticated, and long-lasting, with a pronounced sense of sensory comfort.

The dominant accords of this composition include gourmand almond, soft powdery, vanilla floral, and creamy sweet facets, which together form an elegant and highly commercially appealing fragrance character. The gourmand and powdery aspects remain dominant throughout the evolution of the scent, while the base ensures stability and extended longevity.

TECHNICAL DATA SHEET

Application:

Dragée Enfantine Ornat Fragrance Oil is intended for use in natural fragrance formulations, including scented candles and wax melts. This composition is part of the Ornat fragrance collection of natural origin, developed for formulations that may be aligned with COSMOS Natural and COSMOS Organic standards. A recommended starting concentration is 5–7%, with adjustments depending on the type of base and the desired fragrance intensity. In wax-based formulations, individual testing is recommended to optimize diffusion and stability. For maximum allowable usage levels, consultation of the IFRA certificate is required.
