Miracle Cologne Ornat Fragrance Oil

Product Name: Miracle Cologne Ornat Fragrance Oil

Olfactory Classification: Miracle Cologne Ornat Fragrance Oil belongs to the citrus aromatic, powdery woody, and fresh cologne fragrance family, characterized by a pronounced citrus, herbal, and elegantly powdery profile. The composition combines notes of petitgrain, lemon, clary sage, hawthorn, orange blossom, bergamot, Virginia cedarwood, and vanilla, creating a sophisticated and refreshing fragrance inspired by classic colognes.

Description: The composition is elegant, refreshing, and aromatically woody, featuring prominent citrus notes and a soft powdery finish. The fragrance exhibits a medium intensity, excellent diffusion, and a long-lasting clean trail. The opening is built around petitgrain, lemon, and clary sage. Petitgrain provides a green, woody citrus freshness with a subtle bitter facet, while lemon contributes vibrant citrus energy and radiant freshness. Clary sage introduces herbal aromaticity and sophisticated depth, enriching the top notes.

The heart of the fragrance unfolds through notes of hawthorn, orange blossom, and bergamot. Hawthorn imparts delicate floral softness with subtle fruity nuances, while orange blossom contributes elegant citrus-floral warmth. Bergamot further enhances the fresh citrus character and lends the composition its classic cologne signature.

The base structure is founded on Virginia cedarwood, vanilla, and a powdery accord. Virginia cedarwood provides dry woody stability and elegant warmth, while vanilla contributes a gentle creamy softness. The powdery accord completes the composition with a sophisticated and delicate finish.

The dominant accords of this composition include citrus aromatic, classic cologne, powdery fresh, woody cedar, and a soft vanilla profile. The fragrance leaves a clean, elegant, and sophisticated trail with a pronounced citrus-aromatic character.

TECHNICAL DATA SHEET

Application: Miracle Cologne Ornat Fragrance Oil is intended for the manufacture of scented candles, wax melts, reed diffusers, and other fragranced formulations of natural origin. The recommended concentration for wax-based formulations generally ranges from 5–7%, depending on the desired fragrance intensity and the type of base used. This concentration helps preserve the sophisticated olfactory structure characteristic of the Ornat collection of naturally derived fragrances. For wax-based formulations, preliminary testing of fragrance compatibility and intensity is recommended to achieve optimal results. For maximum permitted concentrations, the relevant IFRA Certificate should be consulted. The fragrance demonstrates excellent stability and a pronounced citrus-aromatic character.

Miracle Cologne Ornat Fragrance Oil is manufactured in accordance with European regulations (CLP Regulation (EC) No. 1907/2006 and 1223/2009/EC) and French IFRA standards.
