

TECHNICAL DATA SHEET

Three Wise Men Ornat Fragrance Oil

Product name: Fragrance Oil "Rois Magi Ornat".

Olfactory classification: Rois Magi Ornat Fragrance Oil belongs to the resinous oriental, aromatic woody and sacred balsamic fragrance group, with a warm resinous, herbal-aromatic and woody character. The composition combines notes of myrrh, galbanum, rosemary, mint, lavender, opopanax, vanilla and vetiver, creating a rich and sophisticated fragrance inspired by ancient incense and oriental aromatic accords.

Fragrance description: The composition has a deep resinous and aromatic character, with pronounced warmth and elegant herbal freshness. The fragrance offers medium to strong projection, excellent longevity and a refined balsamic-woody trail.

The opening is built around myrrh, galbanum and rosemary. Myrrh brings warm resinous richness with soft vanillic nuances reminiscent of ancient oriental incense accords. Galbanum adds a green, resinous and slightly bitter freshness, while rosemary introduces aromatic herbal sharpness and camphoraceous clarity that brightens the opening.

In the heart of the composition, mint and lavender develop. Mint delivers a cool aromatic freshness and vibrancy that contrasts the warm resinous opening, while lavender adds floral-herbal elegance and soothing softness, balancing freshness and warmth.

The base structure is built on opopanax, vanilla and vetiver. Opopanax provides a balsamic resinous depth with soft sweet nuances, while vanilla adds warm creamy fullness and smoothness. Vetiver contributes earthy woody stability, leaving a long-lasting and sophisticated trail.

The dominant accords of this composition include resinous myrrh, aromatic herbs, balsamic vanilla, sacred incense and earthy vetiver. The fragrance leaves a warm, mystical and elegantly aromatic impression.

TECHNICAL DATA SHEET

Application: Three Wise Men Ornat Fragrance Oil is intended for use in the production of scented candles, wax melts, diffusers and other fragrance formulations. It is particularly suitable for oriental, balsamic, festive and meditative collections due to its rich resinous and aromatic-woody character. The recommended concentration in wax-based formulations is approximately 5–7%, with mandatory prior testing for compatibility and diffusion. For maximum allowed usage levels, consultation of the IFRA certificate is required.

Origin & Compliance: This fragrance oil is produced in Grasse, France, and manufactured in accordance with European regulations (EC No. 1907/2006 and 1223/2009/EEC) and IFRA standards.
