

TECHNICAL DATA SHEET

Product Name: 219 Candle Fragrance Oil.

Olfactory classification: 219 Fragrance Oil belongs to the floral fruity, romantic rose and soft patchouli fragrance groups, with a pronounced citrus, floral and velvety fruity character. The composition combines notes of orange, mandarin, rose, jasmine, patchouli and peach, creating an elegant and sensual fragrance with a warm, sophisticated finish.

Fragrance oil description: The composition is elegant, floral and delicately fruity, with a fresh citrus opening and a warm patchouli-peach base. The fragrance has medium to strong intensity, very good diffusion and a long-lasting, sophisticated trail. The opening is built around orange and mandarin. Orange provides sparkling citrus freshness, while mandarin contributes juicy fruity sweetness and a subtly tart nuance. Together, they create a luminous, vibrant and energetic introduction. Rose and jasmine unfold in the heart. Rose provides rich, velvety floral fullness and romantic elegance, while jasmine introduces a more intense and sophisticated floral character. This combination forms an opulent and harmonious floral bouquet. The base is built around patchouli and peach. Patchouli provides earthy, subtly spicy depth and additional persistence, while peach introduces a juicy, soft and velvety fruity finish. Their combination rounds out the composition with a warm and sensual trail. The dominant accords include citrus freshness, romantic rose, rich jasmine, earthy patchouli and velvety peach. The fragrance leaves an elegant, warm and sophisticated floral-fruity impression.

Applications: 219 Fragrance Oil is intended for the manufacture of scented candles, wax melts, diffusers, air fresheners and other fragranced formulations. It is particularly suitable for floral, fruity, romantic and patchouli collections. The recommended concentration depends on the type of base and the desired fragrance intensity, subject to prior compatibility, stability and diffusion testing. The relevant IFRA Certificate should be consulted to determine the maximum permitted concentrations.

Regulatory compliance: The fragrance oil is manufactured in accordance with the relevant requirements of Regulation (EC) No 1907/2006 (REACH), Regulation (EC) No 1272/2008 (CLP) and the applicable Standards of the International Fragrance Association (IFRA).

Animal testing: The fragrance oil has not been tested on animals.
